- Git
- Tailwind Css
- Bootstrap
- C Language
- C++ Language
- MySql
- Redux
- Thunk
- Redux Toolkit
- Problem-Solving
- Communication
- Adaptability
- Observation

PROFILE

I'm a recent graduate diving into MERN Full Stack Development with a passion for creating user-friendly projects. I've built 28 projects, focusing on responsiveness, accessibility, SEO, and performance. I specialize in turning websites into PWAs for mobile and desktop. My goal is to bring creativity and skills to a collaborative team, aiming to create seamless, accessible, and innovative digital experiences.

PROJECT

Flipkart clone

Flipkart clone in MERN (MongoDB, Express, React, Node.js) - An e-commerce web application with admin and user roles, enabling users to browse and purchase products, manage their accounts, and make secure payments. The admin can manage products, categories, and orders, providing a comprehensive shopping experience.

Tech Stacks

- JavaScript
- React JS
- Node JS
- Mongo DB
- Express
- Redux, Thunk
- Tailwind Css
- Material Ui

Others

- Razarpay Api
- Nodemailer
- Cloudinary
- React-Helmet

Additional

- Progressive Web App
- SEO Friendly
- Accessibility
- Responsive Web design

Chat App

Develop a real-time MERN chat application utilizing Socket.io for seamless communication. This app integrates MongoDB, Express, React, and Node.js, enabling users to exchange messages instantly. Socket.io enhances the experience by providing live updates and smooth synchronization in a user-friendly interface

Tech Stacks

- JavaScript
- React JS
- Node JS
- Mongo DB
- Express
- Chakra Ui

Others

- Socket.io-Client
- Express-Async-Handler
- Socket.io

Additional

- Progressive Web App
- SEO Friendly
- Accessibility
- Responsive Web design

Video Streaming

A WebRTC project enhances real-time communication in a MERN (MongoDB, Express.js, React, Node.js) project, enabling seamless audio and video interactions, enriching the user experience.

Tech Stacks

- JavaScript
- React JS
- Node JS
- Mongo DB
- Express
- Chakra Ui

Others

- Socket.io-Client
- Express-Async-Handler
- Socket.io

Additional

- Progressive Web App
- SEO Friendly
- Accessibility
- Responsive Web design
- Performance
